With **over 200 hand-drawn traits**, owning a Strong Ape comes with an **automatic membership** to a closed group of Strong Ape collectors, with **great cash benefits, and exclusive utilities, reserved only for group members**. The Strong Ape Club will be released on November 14, 2021.

The jungle is thrown into complete chaos as different ape groups battle for territorial control. With the battle heating up, lone apes become casualties of war and uniting with stronger ape groups is the only way for weaker lone apes to survive. We, the members of the strong ape club, are uniting to save ourselves and bring order and peace to the war ridden jungle.

Going back to where it all began, the Memorable Apes are the 12 strong alpha apes leading the ape tribes of the jungle. Fighting their way to the top, these 12 strong apes helped train the 5,000 strong apes that now protect the tribe. These apes are the rarest class of collectibles in the tribe. Once the **12 Memorable Apes** are sold out, each collector will be rewarded a **\$10,000 bonus!**
